

Masab Rehman

Lahore / Gujranwala, Pakistan | +92 327 8807535 | masabbhatti567@gmail.com | [LinkedIn Profile](#)

OBJECTIVE

Computer Science student and software engineer skilled in Python, JavaScript/Node.js, and Machine Learning. Experienced in local LLMs, prompt engineering, and scalable full-stack architectures. Seeking the Trainee Claude Certified Architect role to leverage my background in predictive AI and web development to build production-grade agentic systems and robust MCP integrations. Equipped with the technical rigor, rapid prototyping skills, and professional English required for intensive onshore pairing and enterprise client delivery.

EDUCATION

GIFT University — Bachelor of Science in Computer Science (BSCS) | Oct 2023 – Oct 2027 | CGPA: 3.5 / 4.0

Lahore Leads College — Intermediate in Computer Science (ICS) | Aug 2021 – Sep 2023 | Grade: 80% (A)

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), TypeScript (Foundational), SQL, C++, C#, Java

AI & Machine Learning: Local LLMs, Prompt Engineering, PyTorch, Scikit-Learn, Pandas, Artificial Neural Networks (ANN), Vector Embeddings

Frontend Development: React 18, Vite, Tailwind CSS, Responsive Design System Architecture, State Management

Backend & Systems: Node.js, Express.js, RESTful APIs, JWT Authentication, Multer, ExcelJS, Middleware Design

Databases & Data Storage: MySQL 8.4, PostgreSQL, MongoDB, Local Database Optimization (Indexing, Query Tuning)

DevOps & Tools: Git/GitHub, Vercel, Linux/Unix CLI, PowerShell Automation, Environment Config

Core Competencies: System Architecture, Dual-Record Transaction Processing, N+1 Query Optimization, In-Memory Caching, Security Isolation (CSP & Data Sanitization)

KEY PROJECTS & ENGINEERING

Four Brother (4Bros) — B2B Wholesale & Supply Chain Platform | Lead Full-Stack Developer | React, Vite, Node.js, Express, Tailwind CSS, MySQL

- **Designed and built a multi-sector enterprise supply chain web platform** featuring a custom "Heritage Industrial Modern" UI, an interactive tracking interface, and dynamic category showcases (Medicines, Groceries, etc.) integrated with a backend CMS and high-resolution asset delivery pipelines.

VIRK Tools & Equipment — Full-Stack Industrial E-Commerce Platform | Lead Full-Stack Developer | React, Node.js/Express, MySQL 8.4, JWT, ExcelJS

- Architected a complete reseller e-commerce application and secure Admin Control Panel, featuring debounced live search autocomplete (500ms), dynamic multi-facet filtering, a persistent cart, JWT role-based access control, dynamic category management, and automated .xlsx dual-record order logging.
- Optimized backend performance and enforced strict security by resolving N+1 queries via bulk LEFT JOIN operations, adding composite indices, implementing an in-memory TTL cache, and utilizing zero-tolerance data isolation to shield wholesale pricing and supplier contacts from public client-side DOM and API payloads.

Customer Churn Prediction (AI / ML) | Machine Learning Developer | Python, PyTorch, Scikit-Learn, Pandas

- Developed predictive AI models utilizing Artificial Neural Networks (ANN), Naive Bayes, and Regression techniques to evaluate structured customer data and forecast retention trends.

BloomCraft — Web Platform | Co-founder & Web Developer: Developed and deployed a business platform on Vercel; integrated dynamic digital media QR code endpoints connecting client applications to external data sources.

Plant Survival Simulator | Lead Developer: Engineered physics-driven interactive mechanics, state machines, and complex logic flows applicable to multi-agent state orchestration in Unity Engine (C#).

StayEase & CarGo — Management Systems | Full-Stack Developer: Built database-backed workflow applications managing customer records, asset availability, and reservation lifecycles.

EXPERIENCE

Immigration UA — Customer Service & Workflow Agent (Remote) | Jun 2023 – Mar 2024

- Interacted directly with international clients in professional English, analyzing requirements and guiding clients through complex legal and document processes.
- Maintained structured documentation workflows and adapted rapidly to operational pipelines, successfully closing international accounts within the first month.

Burraq Furniture — Sales & Operations Associate (UK & US Markets) | Dec 2022 – Jul 2023

- Managed customer relations, order pipelines, and issue resolution across high-volume overseas e-commerce channels.

LANGUAGES

English: Professional Working Proficiency (Fully prepared for technical pairing and client interactions with onshore architects) | **Urdu:** Native | **Punjabi:** Native
